

## **Postdoctoral Position in Experimental Condensed Matter Physics**

A postdoctoral position for  $\mu$ SR-based materials research is available in our group at Simon Fraser University with a flexible start time before April 1, 2015. We are looking for a highly motivated and creative individual with prior  $\mu$ SR experience and/or a proven track record in experimental condensed matter physics. Our primary interest is in  $\mu$ SR investigations of quantum materials and novel magnetic systems. The experimental work will utilize the facilities of the Centre for Molecular and Materials Science at TRIUMF.

Interested candidates should hold a Ph.D. in Physics, and be capable of independent research as well as working in a team environment. Strong communication skills in oral and written English is essential.

Applications for this position should be sent by e-mail to [jsonier@sfu.ca](mailto:jsonier@sfu.ca), and include a C.V., the names of at least two references, and a cover letter summarizing current and future research initiatives.
