

"Gustavo Sclocchi" Theses Awards 2015

for Doctors of Philosophy and University Graduates
in Petroleum Engineering, Geo-Sciences and
other disciplines related to the Oil & Gas Industry

1. In order to encourage and reward university graduates who specialise in petroleum engineering, geo-sciences and other disciplines related to the oil & gas industry, the **SPE** (Society of Petroleum Engineers - Italian Section), the **EAGE** (European Association of Geoscientists & Engineers) and **Assomineraria** (Italian Petroleum and Mining Industry Association - Hydrocarbon and Geothermal Resources Sector) are pleased to announce the 22nd Thesis Award.
2. All university graduates from Italian universities and Italian nationals graduated abroad, who will complete their studies or research in the period **November 1st 2014 to October 31st 2015**, are entitled to submit their published thesis for the award.
3. The theses must cover subjects related to Hydrocarbon (from fossil sources and biomasses) and Geothermal Exploration & Production activities:

Geology, Geophysics and Formation Evaluation
Drilling and Completion
Reservoir Engineering
Production, Transport and Hydrocarbon Upgrading (Midstream Technologies)
Health, Safety, Environment and Carbon Management
Energy Economics

4. The instructions for participation in the contest are reported in the next two pages of this announcement and in SPE Italian Section web-site www.speitaly.org. Candidates must comply with the following deadlines:

Contact Information and Abstract – deadline October 15th, 2015
Complete electronic copy of the thesis – deadline November 15th, 2015
Graduation Certificate – before the Award Ceremony

5. Any questions can be addressed to: sclocchiaward.speitaly@gmail.com
6. The Board of Directors of the SPE Italian Section, the Board of the EAGE-SEG Italian Section and the Board of Directors of Assomineraria jointly appoint the Evaluation Committee, which is composed of experts in the above-mentioned disciplines. The Evaluation Committee shall select the theses considered to be the most worthy of receiving the Award. Its decision is final and is not subject to appeal.
7. The manuscripts will be subdivided, judged and awarded according to the following four categories:
 - (a) 2nd Level Master Reports
 - (b) Bachelor of Science (Laurea di I livello) theses
 - (c) Master of Science (Laurea Magistrale) theses
 - (d) Doctor of Philosophy (Dottorato di Ricerca) theses
8. The award for category (a) will consist of one year paid subscription to SPE or EAGE and a plaque. The prize for each winning thesis belonging to categories (b), (c) and (d) will be 2,400€ (twenty four hundred Euros) and a plaque. Moreover, a reference of each award-winning thesis will be published in the «SPE Bulletin» of the Italian Section, in the «EAGE First Break» journal and in the «Assomin Bulletin».
9. No more than six (6) money prizes for all categories (b), (c) and (d) will be awarded. The Evaluation Committee will select the number of the money prizes, among classes (b), (c) and (d), according to the number of received manuscripts per class and the results of the evaluation process. The number of awards for category (a) will be similarly decided, with a maximum of four (4).
10. The Award ceremony will take place on December 2013 in San Donato Milanese (Italy) and winners will be asked to deliver a short presentation of their thesis work at this event. Winners will be notified in due time of the date and venue of the ceremony and of the presentation guidelines.

"Gustavo Sclocchi" Thesis Awards 2015

Documents to be submitted

In order to participate in the contest, **ALL the following information must be submitted to the reference person at the following email: sclocchiaward.speitaly@gmail.com**

NO LATER THAN OCTOBER 15th, 2015

a. Contact information

E-mail address

Telephone number (if available, mobile number)

Home address

b. Thesis Degree (2nd level Master, Bachelor of Science, Master of Science or PhD.) and Title (in English and, if suitable, Italian)

c. Abstract of the thesis (two pages max, in English or Italian following the below reported Guidelines)

d. Reference information of the Dean of the Faculty (e-mail and post address)

e. Reference information of the assisting professor/s (e-mail and post address)

NO LATER THAN NOVEMBER 15th, 2015

f. Complete electronic copy of the thesis, in English or Italian, (accepted formats: MS Word and PDF Acrobat)

It is strongly recommended to use jumbo mail, we-transfer or an equivalent system to submit large dimension manuscripts (larger than 10-15 MB)

BEFORE CEREMONY

g. Document attesting the date and place of graduation – by email at the above address before the Award Ceremony.

Please note that the Abstracts have significant weight on the evaluation process, so that their careful and accurate preparation contributes to the overall thesis rating.

"Gustavo Sclocchi" Thesis Awards 2015

Guidelines for the preparation of the Thesis Abstract

Thesis abstract should contain approximately 400 - 600 words and enough information to allow the Evaluation Committee to make an accurate judgment of the content of your thesis.

The text of the Abstract should be organized along the following lines:

1. **Problem Statement:** the Thesis Abstract should state briefly the problem you intend to address.
2. **Objectives and Scope of the Study:** state the objectives of the study clearly, outline the scope and limitations of your work and point out the aspects that have not been well understood yet, which may require further studies.
3. **Methodology:** state briefly the approach upon which the thesis is based (e.g., field data, laboratory data, original analysis, or computer work) and how the work has been organized.
4. **Results and Observations:** give the major results or findings of the study.
5. **Usefulness and Applications:** describe the possible applications or the implications of the knowledge provided in the thesis.
6. **Innovations or Technical Contributions:** state what is new in your study and its importance to the oilfield and list the most important innovations or technical contributions in your thesis to the technical knowledge base of the petroleum industry.
