

Eni and Eni Corporate University offer up to five internships to students enrolled in the Master's in Petroleum Geology (2016-2018 academic year) at the University of Perugia, aimed at preparing the graduation thesis.

The internship period runs for three months and will be carried out at the Eni facilities in San Donato Milanese (MI).

RECIPIENTS AND REQUIREMENTS

The application can be submitted by students who have attended the lessons and seminars held by Eni experts at the University of Perugia and who fulfil the following requirements:

- be duly registered with the second year of the above degree course;
- not be over 26 years of age on 31/12/2017;
- have passed at least five of the seven mandatory exams included in the curriculum (Geophysics, Global Tectonics, Sedimentology, Structural Geology, Stratigraphy, Applied Geochemistry, Seismic Interpretation);
- have an average grade for the passed examinations equal to or exceeding 27/30;
- have an adequate knowledge of written and spoken English.

The application, accompanied by the following documentation:

- curriculum vitae (with authorization to the processing of personal data under Italian Legislative Decree no 196/2003);
- self-certification showing the list of completed exams with their grades;
- self-certification of the level of knowledge of written and spoken English and any supporting documentation;

must be sent no later than 6:00 p.m. of 30th November 2017 to the following email address:

application@enicorporateuniversity.eni.it

The email subject must contain the wording "Geology internship application - UniPG".

AWARDING PROCEDURE

Awarding the internship will be at the unappealable discretion of the Technical Scientific Commission, which will assess the university curriculum, and within the first half of December 2017 it will call the candidates to undergo the aptitude and technical tests at the facilities of Eni Corporate University in San Donato Milanese (MI).

TUTORSHIP

During the internship, the students will be coached by academic and company tutors.

COMPANY SUPPORTS

Eni will offer economic aid to the students for the entire internship period.
