

Avviso di Seminario

Martedì 28 gennaio 15:15 Sala Riunioni (1)

Marco Nardecchia

PhD

DAMPT and Cavendish Laboratory, University of Cambridge, Cambridge, United Kingdom

Terrà un seminario dal titolo :

"Aspects of Flavour and CP violation at the LHC"

Abstract :

After a general introduction on the problem of flavour physics beyond the SM, I will discuss various results connected with the LHC experiments in particular I will focus on the measurement of a direct CP asymmetry in D meson decays.

Il Direttore
Dr. Pasquale Lubrano
